ELECTVS is a major step in the evolution of natural cork closures. Latin for “those selected” this proprietary system from The Lafitte Group will analyze individual corks and “select” from each lot those with non-detectable levels of TCA. This new technology is backed by our 100% bottle buy back guarantee.

## ELECTVS

*The Fleurs de Lafitte product paired with the ELECTVS System achieves the delicate balance between natural and scientific selection.*

### our Commitment

*We believe it is our responsibility to make advancements in the technology, service and stewardship of our resources and continue to set the standards of excellence in our industry. This ensures our commitment to maintaining sustainable partnerships at all levels of our service and production.*

Crowning the achievements of fine wine for generations.™
